

# Lexmark N4050e 802.11g Wireless Print Server

The Lexmark N4050e 802.11g wireless print server allows you to easily connect your USB equipped Lexmark laser printer, multifunction printer, all-in-one, inkjet printer or forms printer to a home or corporate network. The small footprint and affordable price makes the N4050e the perfect choice for wireless printing. The N4050e also supports most third-party printers that have a USB port.
